SLATEMAKERS HARD AT IT

THE WORK OF ORGANIZING A CAMPAIGN FOR 1896 BEGINNING.

The Chairmen Meet in Ex Parte and Fix Rather Vote Scale Basis — Number Against Which Will Run the Risk of the Democratic Nomination for Governor of Each — The New York Candidates — Views of Various Persons for Consideration Discussed.

INDIANAPOLIS, Ind., Nov. 21.—(Special.)—The Democrats are not serious enough to wear the laurels. All the workers in behalf of State tickets have been summoned to consultation with Carlisle, and are now assembled ostensibly to consider the best plans and best of campaigns. It is said that the policy of the party shall be to avoid the issue of a platform and until the last minute to rely on individuals for party work in each locality, except in so far as the general issue may be involved. Then only, when the party thinks it is going to win, will the issue be presented in detail. It follows that in organization the Democrats intend to have the best and they do. Right now they are ahead of the Republicans in this respect. The Democrats seem to have got and they do exist counties organized for the fight, while the Republicans have not. Democratic State Committeeman Taggart and Chairman Kern, and no doubt other members of both committees, are here, and the county and town organizations are being perfected.

However, it makes little difference to the Democratic managers whether the Presidential year brings with its excitement or not. They are going to prove that the Democratic party can win without any assistance from the Republicans. Mr. Kern has no fear of the result, and has every confidence that the Democrats will carry the State. Mr. Taggart, who is the Democratic National Committeeman, and is also a member of the Democratic State Committee, is of the same opinion. He says that the Democrats will carry the State by a majority of 20,000 votes. Mr. Taggart has been in the habit of attending the Democratic State conventions for the last twenty years, and has never seen the party in better condition to carry the State. He says that the Democrats will go on the Australian ballot system, and will be perfectly satisfied with that system. He is of the opinion that the Democrats will carry the State by a majority of 20,000 votes. Mr. Taggart is a Democrat of the old school, and has always been a party worker. He is a believer in the principles of the party, and has always been willing to do his share of the work. He is a man of fine appearance, and is a good talker. He has been a delegate to every Democratic National Convention for the last twenty years, and has been a member of the Democratic National Committee for the last eight years. He is a man of fine appearance, and is a good talker. He has been a delegate to every Democratic National Convention for the last twenty years, and has been a member of the Democratic National Committee for the last eight years. NEW ERA IN THE SOUTH.

MR. CARNEGIE'S OPINION AFTER AN EXTENDED OBSERVATION.

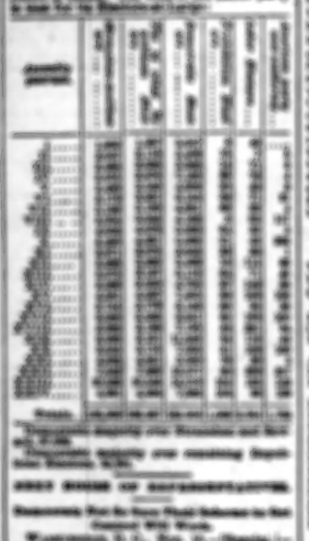
The Editor of an Independent Paper in Charleston, S. C., Criticises an Interview of the Englishman and Declares Such Things for the South—The Democratic Senator in Reply—Mr. Smalley Likely to Visit Europe to Talk About It—Two Telegrams.

CHARLESTON, S. C., Nov. 21.—(Special.)—A political sensation has arisen here over the publication of a letter signed Carnegie in the Post and Courier, this morning, which is the organ of the Democratic Executive Committee, and has just returned from a visit to Washington.

"Those who have known Mrs. Carnegie long and admired her excellent qualities in her personal life, will regret to learn that she is not with her husband in his visit to the South. Carnegie's last report of pure iron, in the shape of Southern Democrats, is not a success. The Democrats of the South are not in favor of the Democratic party, and the Democratic party is not in favor of the Democrats of the South. The Democrats of the South are not in favor of the Democratic party, and the Democratic party is not in favor of the Democrats of the South. The Democrats of the South are not in favor of the Democratic party, and the Democratic party is not in favor of the Democrats of the South.

"This is not the view of the Democrats of the South. The Democrats of the South are not in favor of the Democratic party, and the Democratic party is not in favor of the Democrats of the South. The Democrats of the South are not in favor of the Democratic party, and the Democratic party is not in favor of the Democrats of the South. The Democrats of the South are not in favor of the Democratic party, and the Democratic party is not in favor of the Democrats of the South.

"Later advices from Washington state that Mr. Carnegie has left for New York on the Democratic train, and will return to Washington. Mr. Carnegie has left for New York on the Democratic train, and will return to Washington. Mr. Carnegie has left for New York on the Democratic train, and will return to Washington. Mr. Carnegie has left for New York on the Democratic train, and will return to Washington.



POWDERLY HEARD FROM.

AN OFFICIAL DENUNCIATION OF CERTAIN ACTS OF THE BOARD.

The Grand Master Workman of the Knights of Labor Makes His Annual Report to Which He Pays Particular Attention to Mr. Henry and Other Lieutenants of Mr. Sharp — The Threatened Opposition Knights Reckless—Why the Membership Has Decreased.

INDIANAPOLIS, Ind., Nov. 21.—(Special.)—In his annual report of the General Assembly of the Knights of Labor now held here, Terence V. Powderly, Grand Master Workman, has had much to say in a denunciatory manner of the Executive Board of the Knights of Labor. The report was read this afternoon to a large audience, and was listened to with the closest attention. It was frequently interrupted by applause. The proceedings of the Executive Committee were also listened to. Except immediately after the Minneapolis session was secret.

There can be no doubt but that the Executive Committee is responsible to a great extent for the present decline of the Knights of Labor. There was unquestionably an error, and that error probably affected the membership. Although the report of the Executive Committee to Powderly is very positive, it seems certain that the organization managed by the men who preceded the present Executive Board, if not Powderly himself, was responsible for the loss of membership. Powderly, in his report, says that he will not be responsible for the acts of the Executive Committee, but that he will be responsible for the acts of the Executive Committee, but that he will be responsible for the acts of the Executive Committee, but that he will

The money market was free and exclusive in sales. Local securities were dull, and the gas properties were weak. New York exchange was firmer, and sterling exchange in Washington was unchanged quiet, but weakness. The Quarterly Gossip Report, with the last dates to the week ended. The Chicago produce markets were dull, but grain was stronger. Wall Street prices from the Exchange to quotes stocks, to all places to which subscribers to report, for consideration between dealers and subscribers. Quarterly Report, as compared with Wednesday last week ended by week ended, and a short review, also by week ended, about the May 31 week ended, were made on Corporate, also by week ended, are exactly, barley firm, and decidedly in our favor.

The official returns of New York City have been received and show that 1,700 ballots were cast by the Labor party for the head of the Republican District. This result has brought about by a bargain between Congress, the Labor candidate for Mayor, and some of the Republican managers. Despite number votes of its friends with the two Labor Unions in Local for the State, while the remaining thirty-four Districts were Republican. The vote was cast, for one of the Republican Districts in the city was 10,000, while that cast for the thirty-four other Republicans was 10,... 417. The Democratic majority over one of the Republican Districts in the City of New York was consequently 6,000, while the Democratic majority over the remaining thirty-four Republican Districts was only 10,000. If under the Democrat in the vote in New York City will have no effect upon the general result.

Gen. Tanner has at last figured out why he was beaten. He thinks the two things would chiefly do it were the colored Mr. the soldier vote. The 10,000 colored men of Illinois, he says, were split against him. He estimates of their number in ordinary assembly, for county were just 10,000 to 100 and they have hardly increased 10 per cent since then, but circumstances that they would not break this with a ten-fold vote is substantially correct. The white Mayor did not have the colored people at the North out at the rights that they were entitled to. Exciting as they did just before election there was colored men to vote, at 2 they cast their ballots quietly and went home

The "Rogers, Peet & Co." Overcoats

Are an every-day inspiration to us. They've been tried by the people of Chicago year after year and NEVER FOUND wanting. New York City approves of them with a patronage truly magnificent. You must support them, why they are so popular, why we talk them up so confidently. In them you'll find the honest, intelligent expert embodiment of a purpose to place on your backs garments of sterling worth, of intrinsic value, such as shall win and hold your confidence. Such work carries with it cumulative influence, the benefits are mutual, the patronage unanimous.

Every man in favor of an honest, well made Overcoat, at a very reasonable price, will please manifest it by calling in today and SAVING $5.

There are still quite a number of those Big Value Overcoats left for Children 4 to 12 years of age at a choice for $3. Many of them are worth double the money.

WILDE'S CLOTHING HOUSE.

Did you ever have a suit made to order by a tailor that you did not have to have altered?

Is it not true that you have had it altered several times, and then it didn't fit?

Did it ever occur to you that small tailor shops, or even large ones, can not afford to pay for the best talent, with few exceptions?

Our attention to MAKING AND SELLING CLOTHING. The best talent is essential to the success of a large business. Is it not so?

We started out to do the finest tailoring business in ready-to-put-on garments, and have succeeded.

We use five different shaped patterns to fit the different forms of men, and have succeeded.

We expect to show you an entirely different line of wearing apparel—habit, fabric, finer than any house in the big, live city of Chicago. We have succeeded.

Both should overcome prejudice, and on this ground we invite your patronage.
